

2nd India Unconventional Gas Forum (IUGF)2011
Unlocking the value of unconventional gas
18th November 2011, Hilton
Sahar Airport Road, Mumbai, India

Conference Agenda

0800 Registration
0850 Chairman's Remarks
Conference Co-Chairman: Invited Bruce McCarthy, MD, Oilex Ltd.
9 AM to 11.00 MM

Keynote session

- Development of Unconventional gas in India - **Senior official DG Hydrocarbons**
- Environmental concerns for CBM & Shale Gas development – **Dr. R K Suri, Director, Ministry of Environment & Forests, Govt. of India**
- CMM and UGC potential in India – An overview -- **Official CMPDI, Coal India Ltd.,**
- Status of CBM Exploration and Production Scenario - Need for acceleration -- **Prem Sawhney, COO, Essar Exploration & Production Ltd.**
- Treatment of produced water for unconventional Gas --- **Invited Dr. Zara Khatib, Chief Technologist, Gas Research Centre, Petroleum Institute, Abu Dhabi**
- Practical considerations for shale Gas Exploration -- Strategies for developing Shale Gas Potential in India – **Senior official ONGC**
- Unconventional Gas - the Massive Paradigm Shift – **Senior official Reliance Industries Limited E & P**

11:00 AM Refreshments

11:30 PM to 1:00 PM

Technology Session

- New fracturing technology application in Shale gas – **Dr. Avinash Chandra, Former DG, Directorate General of Hydrocarbons**
- Unlocking Potential of Shale Gas in India- Important geological properties of unconventional gas -- **Dr. V K Rao, Senior VP & OSD, Reliance Natural Resources Limited**
- Technical factors making a successful shale gas play --- **Dr. Rajiv Sagar, Technical Studies Manager, Schlumberger**
- Advanced Drilling Technology for optimum production --
- Resource assessment and CBM reservoir characterisation – **Dr. S K Singh, General Manager, CBM projects, Essar Exploration & Production Ltd.,**
- Fracturing Technology Application in Shale gas / CBM
- Designing of evacuation infrastructure for unconventional gas – from well to market

1:00 PM Lunch
2:00 PM to 3:30 PM

Operational Perspectives Session

- Evaluating Shale Gas prospects in India - Operational overview for successful gas shale program – **Senior official, DG Hydrocarbons**
- Risk Management approach in Shale Gas – **Ralph FRAÏLÉ, VP Geomarket, Director, India, Bangladesh, Sri Lanka, CGG Veritas**
- The Impact of Perforating on Unconventional Oil & Gas Well Profitability – **Matt Bell, CEO, Geodynamics Inc.**
- High pressure methane adsorption study for coals and shales from Jharia Coalfields – **Dr. Basanta Kumar Prusty, IIT Kharagpur**
- Issues and Challenges, priorities and outlook, Unconventional Gas -- **Rakesh Jain, GM, Energy Division, Feedback Ventures Private Limited.**

3:30 PM Refreshments

2nd India Unconventional Gas Forum (IUGF)2011
Unlocking the value of unconventional gas
18th November 2011, Hilton
Sahar Airport Road, Mumbai, India

4:00 PM to 5:30 PM

Operational Session continued

- Policy & Regulatory Framework for Accelerating Development of CBM/Shale Gas in India -- **Deepak Mahurkar, Head the Oil & Gas advisory practice, PwC India**
- Harmonising Tax - Oil & Gas & Land Laws for effective gas Production – **Official KPMG**
- Challenges for producing CBM in India --- Lessons learnt and strategies to success
- Netzsch Progressing Cavity Pumps for Artificial Lift -- **Yogesh Kr. Goel, Field Manager- Oil & Gas, Netzsch Technologies India Pvt. Limited**

6:00 PM Q & A

Close of Conference
